

Cedars

A free employment counselling program for young women with breast cancer, generously funded by a grant from [Rethink Breast Cancer](#).

- Have you been diagnosed with or treated for **breast cancer**?
- Are you a **young woman** in your child-bearing years?
- Are you struggling with **career-related issues**?

If you answered yes to all these questions then you're eligible for cedars... a **free employment counselling** program to help you cope with the anxiety, confusion and uncertainty that can arise when you're trying to build your career, or just hang on to a job, after a breast cancer diagnosis.

Cedars was developed by Lina Crossin, a Registered Clinical Counsellor licensed in BC and across Canada. Lina combines over 15 years of professional work experience in corporate human resources, recruitment, and employment counselling along with her own personal history of being a young working woman dealing with a diagnosis of breast cancer. In addition to leading the Cedars program, Lina works at a private practice that specializes in **helping clients with anxiety and depression** issues.

Based out of Vancouver, BC, Lina works with clients on a **face-to-face** basis or via **skype, telephone or email** depending on client preferences, geographic location or mobility issues. **Contact Lina** for more information:
